

Director: Neil Pankhurst
Scene Designer: Inseung Park
Technical Director: Andrew Stuart

THE WALTZ

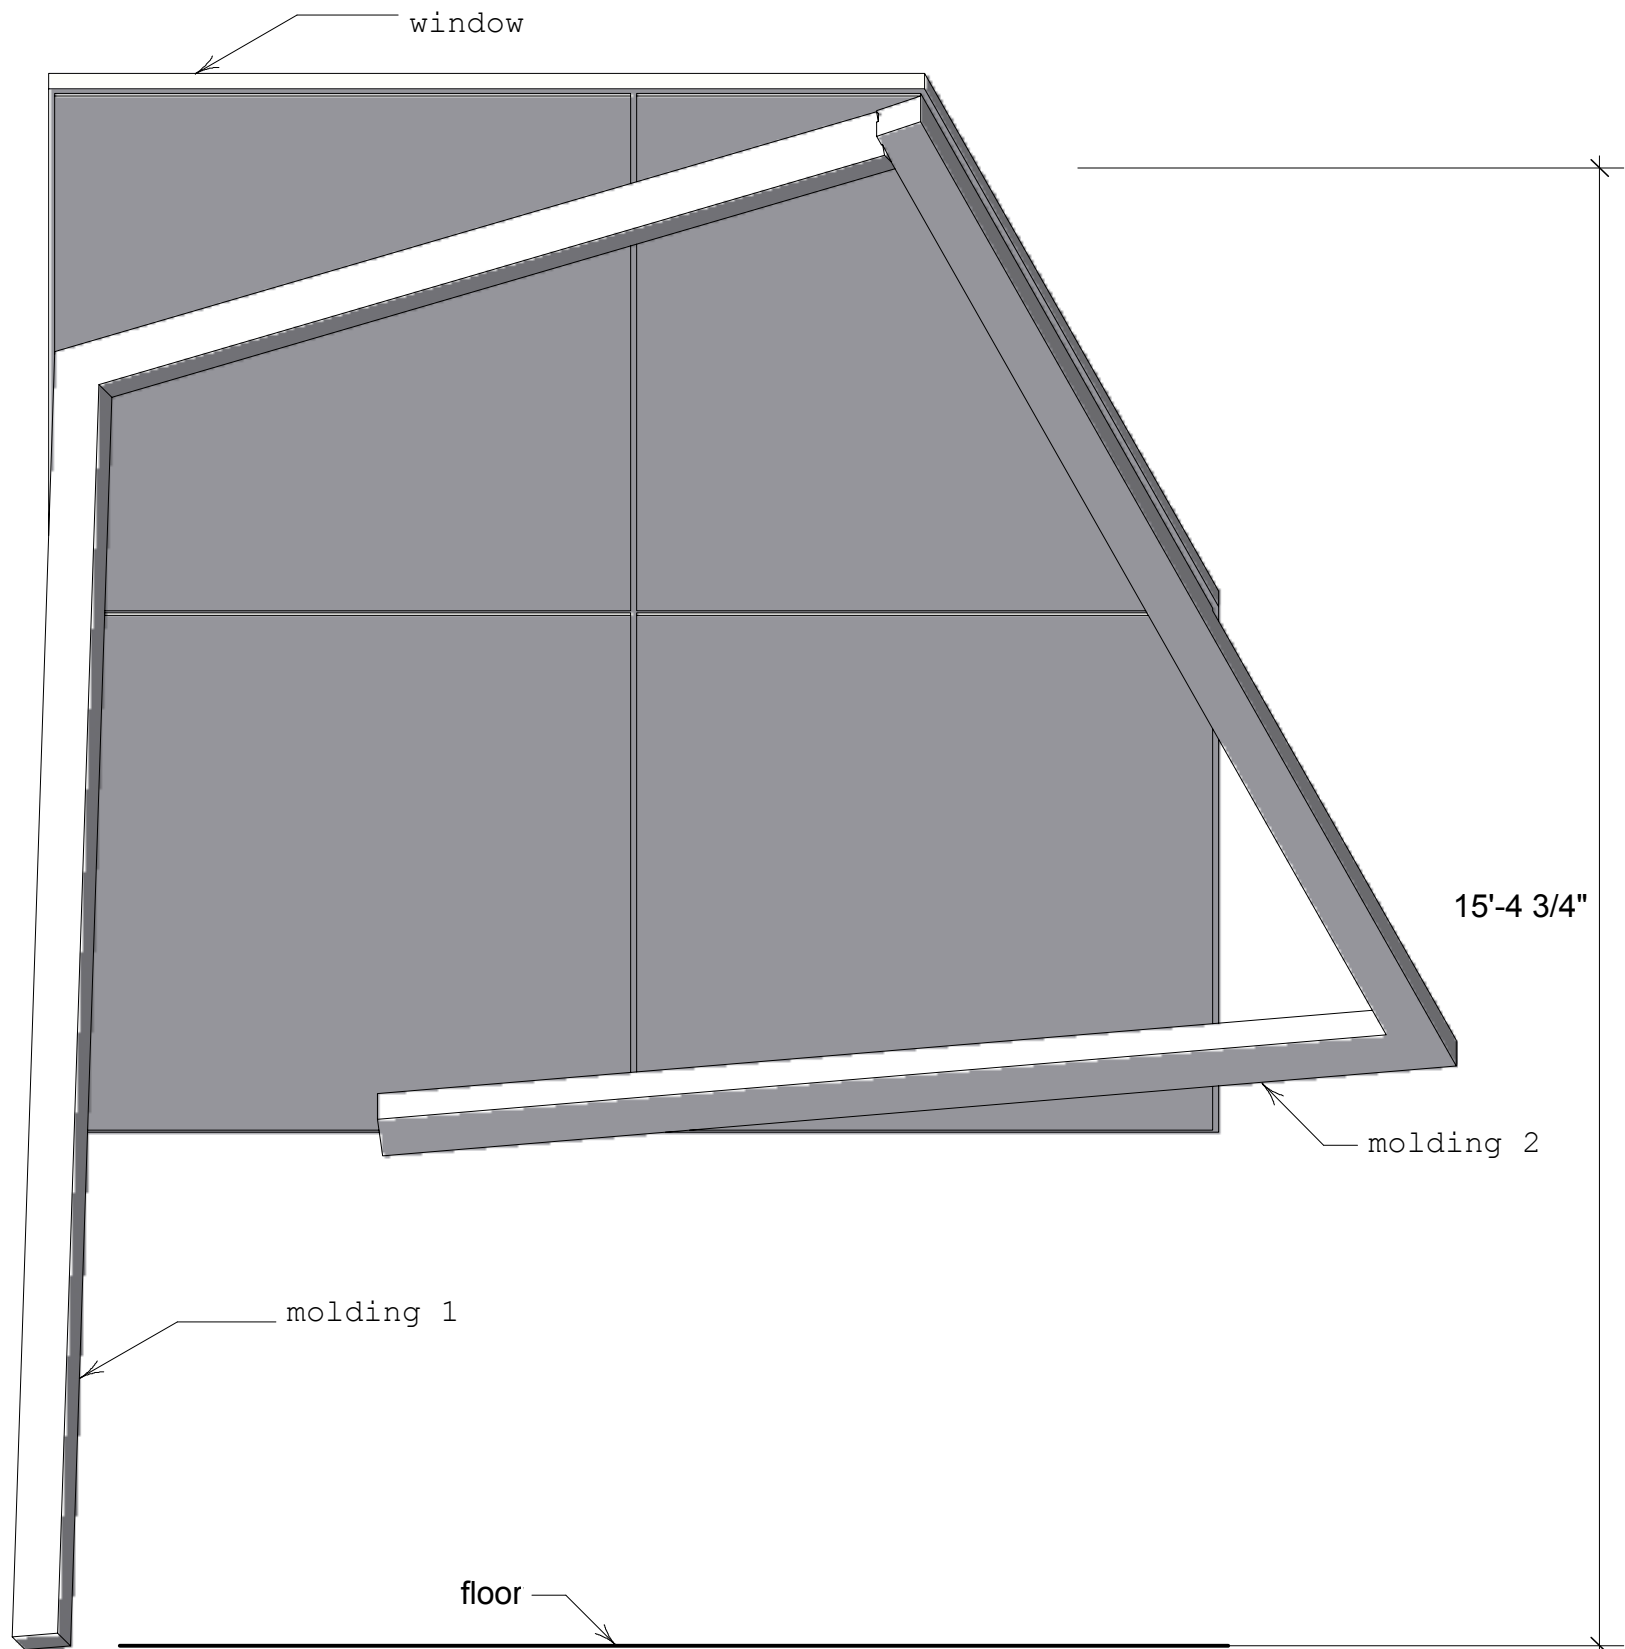

Drafter: Inseung Park

Scale: 1/2"=1'-0"

Skylight front view

Date: May 9, 2016

Skylight unit including window, molding 1 and molding 2

General Notes

1. The curtain is hung under the frame of skylight - See the rendering and model photo.
2. The curtain bottom SR should lay over the floor about 2'.
3. The curtain bottom SL should slightly touch the floor.
4. May need a pulley system to open and close the curtain under the slanted frame.
5. If projecting images on the curtain, should keep it as flat as possible when closed.
6. The molding details are not drawn in this view - See the drawing 4, and 5.
7. The curtain material: 114" crushed voile, IFR, white @ Rose Brand OR similar
8. 4 window panels material: Aglo, IFR projection fabric, white @ Rose Brand OR similar
9. Ceiling fan: Industrial ceiling fan modern brushed nickel heavy duty commercial 3 blade large - fan width 56" OR similar
